### BODY RIDDLED WITH BULLETS.

North Carolina Negro Lynched for a  
Brutal Murder.

Halifax, N. C., Aug. 21.—The dead  
body of Mary Jenkins, thirteen years  
old, was found in the stable of Captain  
Griffin, her grandfather, last  
night, with the throat cut from ear to  
ear.

A negro employed by Captain Griffin,  
when searched, was found to have  
the keys to the stable, a bloody knife,  
and blood on his hand and clothes.

A crowd gathered and securing the  
negro, handed him to a tree and riddled  
his body with bullets. The negro  
after the noise had been placed  
around his neck, confessed to the  
murder of the little girl and to having  
criminally assaulted her.

After disposing of the negro the  
crowd, which had made no attempt at  
concealment, dispersed without any  
further disorder.

### Fatal Accident at Pittsburg.

Pittsburg, Aug. 21.—By the collapse  
of a scaffold last night in the annex  
to the Joseph Horne company building  
on Penn avenue, Samuel Brooker was  
killed and two other colored men so  
seriously hurt that they will probably  
die.

## RELIANCE IN THE LEAD

AMERICAN YACHT FAR AHEAD OF  
SHAMROCK III WHEN RACE IS  
CALLED OFF.

### THE AMERICA'S CUP IS SAFE

EXPERTS PREDICT FAILURE OF  
LIPTON'S THIRD ATTEMPT TO  
LIFT TROPHY.

New York, Aug. 21.—One of the big-  
gest crowds of sightseers and yachts-  
men that ever sailed down Sandy  
Hook to witness an attempt of a for-  
eign cup hunter to wrest from America  
the yachting supremacy of the world,  
returned to New York last night dis-  
appointed because the sea had re-  
fused a field of combat to the racers,  
but nevertheless, jubilant in the con-  
viction that Sir Thomas Lipton's lat-  
est challenger, like the two Sham-  
rocks which had preceded her, was  
doomed to return to England empty-  
handed. Of course the race Thurs-  
day was not absolutely conclusive,  
owing to the light and shifting charac-  
ter of the air, but in a fifteen-mile  
beat to windward, a portion of which  
was sailed in a driving rain, the cup  
defender

### Reliance Showed Her Heels

to Shamrock III in commanding style  
and in weather conditions which were  
supposed to be to the particular liking  
of the challenger. Five's latest crea-  
tion has been heralded as a veritable  
wizard in light breezes in windward  
work, especially with a jumpy sea on,  
while the Reliance, in her trials, had  
demonstrated best reaching and run-  
ning in a whole-sail wind. Yet Thurs-  
day, with a breeze varying from one  
to twelve knots, and against a long  
ground-swell, the defender out-footed  
and out-pointed her. The Shamrock  
did not turn the outer mark, and there  
is, therefore, no way of knowing ab-  
solutely how badly she was beaten,  
but it was estimated that she was  
more than a mile astern, or about six-  
teen minutes in the existing strength  
of the wind, when the Reliance  
rounded.

### America's Cup Is Safe.

As a result of the trial, the experts  
believe, blow high or low, that the Re-  
liance will win this, the thirteenth  
series for the America's cup.

The day was a miserable one for  
those who went down to the ocean race  
course off Sandy Hook. A mist lay  
over the city and bay in the morning,  
and when the great fleet of excursion  
steamers, steam yachts, tugs and sail-  
ing vessels reached the starting line  
where the big single-stickers were al-  
ready jockeying for a position, black,  
threatening clouds were gathering  
over the Jersey highlands and the  
breeze was not over six knots.

The course was set fifteen miles  
Southwest, straight down the Jersey  
coast, and return. At the very start  
Captain Barr cleverly outgeneralled  
Captain Wringe, sending the Reliance  
over the line thirty-three seconds be-  
hind the challenger, but

### In the Windward Berth.

In the first twenty minutes of sailing  
the defender showed her windward  
qualities, drawing up on even terms  
with the challenger besides being  
about two hundred yards to wind-  
ward. Then the storm broke, and for  
thirty minutes the rain came down in  
torrents, the wind meanwhile increas-  
ing to twelve knots.

When the storm had passed, the de-  
fender was seen to be firmly estab-  
lished on the weather bow of Shamrock  
III, and she was never after-ward  
headed.

During the last two hours of the  
race the Reliance steadily increased  
her lead, rounding the turn a mile  
ahead of Shamrock. Heading back  
for home close-hauled, she had just  
reached the Shamrock, still outward-  
bound, when, it being apparent that  
the race could not be finished in the  
time allowance, the regatta committee  
boat at 3:45 fired the signal which  
declared the race off.

Under the rules the first race, fifteen  
miles to leeward or windward and re-

turn, is now postponed until Saturday.

### Sir Thomas Not Discouraged.

Sir Thomas Lipton was the first of  
the owners to return to the Hook  
Thursday, coming back on the Erin  
with his 100 or more guests. He was  
busy bidding adieu, but he stopped  
to say:

"No, I am not in the least disap-  
pointed in my boat or the outlook to-  
day. The wind was so light that no  
boat had a good chance, particularly  
mine with the smaller sail area. Wait  
till we get a good breeze."

The two single stickers did not ar-  
rive at the Hook until after 6 o'clock.  
The captains of both boats refused to  
talk for publication and all that Mr.  
Lipton would say was:

"We are perfectly satisfied. We  
have always been."

The work of the patrol fleet was per-  
fect. Moving at right angles, line  
ahead and line abreast, the revenue  
cutters kept the yachts in the hollow  
of a moving angle, as free from inter-  
ference as if they had been sailing in  
mid-ocean.

### PASSED WORTHLESS CHECKS.

Alfred Crosby Owen Arrested at New  
York.

New York, Aug. 21.—Alfred Crosby  
Owen, twenty-eight years old, who  
says his home is in Washington, D. C.,  
was locked up at police headquarters  
Thursday, charged with passing two  
worthless checks on the Waldorf-Ast-  
oria and Fifth Avenue hotels. The  
police believe they have the man who  
has been spending the last few weeks  
in the West, chartering special trains  
and posing as the son of Stephen B.  
Elkins.

### Wilson S. Bissell Seriously Ill.

Bar Harbor, Me., Aug. 21.—Former  
Postmaster General Wilson S. Bissell  
is ill here and his friends fear he can-  
not recover. Mr. Bissell is a sufferer  
from Bright's disease.

## HEAVY LOSS OF LIFE

BRITISH FORCE CAPTURES NIG-  
ERIAN TOWN AND KILLS HUN-  
DREDS OF NATIVES.

London, Aug. 21.—Dispatches re-  
ceived at the colonial office from Zan-  
gurun, Northern Nigeria, dated Aug.  
17, give details of the destruction of  
the town of Birmi by a British force  
of 30 whites and 500 native rank and  
file. The enemy's loss was 700 killed,  
including the former sultan of Sokoto  
and a majority of the chiefs. The  
British loss was 11 men killed, includ-  
ing 1 officer, and 62 men wounded.  
The enemy made a desperate house to  
house resistance.

### BIG FRAUD IS ALLEGED.

Bill of Complaint in Federal Court  
Against Prominent Delaware Man.

Philadelphia, Aug. 21.—A special  
to the Evening Telegraph from Wil-  
mington, Del., says:

In the United States circuit court  
George Wharton Pepper of Philadel-  
phia, receiver of the Bay State Gas  
company of Delaware, filed a bill of  
complaint against J. Edward Ad-  
dicks, United States Senator J. Frank  
Albee and others, alleging fraud in  
connection with a transaction involv-  
ing the stock of the company, said to  
be valued at \$75,000,000. The bill  
charges the defendants as directors, ex-  
cept Addicks, with entering into an  
unlawful combination to issue to Ad-  
dicks 1,500,000 shares of stock of the  
Bay State Gas company without con-  
sideration.

The bill further asks that Addicks  
be ordered to deliver to the receiver  
for cancellation certificates for the  
1,500,000 shares of stock and that an  
accounting be made of the damages  
and loss sustained by the Bay State  
Gas company of Delaware in conse-  
quence of the fraudulent and unlaw-  
ful issue of stock and that the de-  
fendants be ordered to pay an amount  
equivalent to the alleged damage and  
loss. The defendants are required to  
appear and make answer on the first  
Monday of November.

### AFTER INFORMATION.

State Department Wires Minister  
Beaupre for Canal Treaty News.

Washington, Aug. 21.—Minister  
Beaupre at Bogota, has been asked by  
the state department to send more de-  
finite information concerning the pro-  
ceedings about the isthmian canal  
treaty, but there is no way of telling  
how long the message will be delayed,  
owing to the interrupted telegraphic  
communication between Buena Ven-  
tura and Bogota. The fact that two  
messages of the same date reached  
the department with an interval of  
four days between them shows how  
irregular this method of communica-  
tion has become. The trouble seems  
to be with the land lines, and it is un-  
derstood that heavy tropical growth  
has interfered with the wires. The  
only dispatch received Thursday  
from Minister Beaupre was dated Aug.  
12, and was very indefinite, although  
it conveyed the impression that further  
efforts are being made to secure favor-  
able action upon the treaty.

### TROLLEY CAR RUNS AWAY.

One Man Killed and Several Others  
Injured.

Braddock, Pa., Aug. 21.—An open  
car on the Wilkensburg and East Pitts-  
burg division of the Pittsburgh Railway  
company got away from the motorman  
on a high grade in North Braddock  
last evening and in its wild dash,  
killed Archie Hamilton and fatally in-  
jured Philip Burns, besides badly in-  
juring several more.

## ELECT JOHN C. BLACK

GRAND ARMY VETERANS CHOOSE  
THE ILLINOIS MAN FOR COM-  
MANDER-IN-CHIEF.

### NEXT MEETING AT BOSTON

PROPOSAL TO ADMIT SONS OF  
VETERANS INTO GRAND ARMY  
POSTS VOTED DOWN.

San Francisco, Aug. 21.—The Grand  
Army of the Republic selected Boston  
as the place in which the encampment  
of 1904 will be held and elected the  
following officers:

Commander-in-chief, General John  
C. Black, Illinois; senior vice com-  
mander, Colonel C. Mason Keefe, Cal-  
ifornia; junior vice commander, Colo-  
nel Harry Kessler, Montana; surgeon-  
in-chief, George A. Harmon, Ohio;  
chaplain-in-chief, Winfield Scott, Ariz-  
ona.

The only contest of officers was over  
chaplain, for which two ballots were  
taken. On the first ballot, Bross of  
Nebraska received 28 votes, Scott of  
Arizona 36, and Bradford of Washing-  
ton 35. Bradford withdrew and Scott  
was elected on the second ballot.

General John C. Black of Illinois  
was nominated by Past Department  
Commander Lawler of Illinois for the  
office of commander-in-chief. The nomi-  
nation was seconded by Minton of  
Kentucky and Torrence of Minnesota.  
Under suspension of the rules, Gen-  
eral Black was elected by acclamation.  
He made a brief address.

The remaining officers will be  
chosen today and also the committee  
on resolutions and it is expected that  
the encampment will then adjourn.

General Miles responded to a call  
for a speech and praised the heroism  
of the men who fought in the Civil war.

### Boston Selected by Acclamation.

Boston and Denver were the only  
places contesting for the next place  
of meeting. Before the ballot had pro-  
ceeded far, it became apparent Den-  
ver had no chance, and it was with-  
drawn. Boston was selected by ac-  
clamation.

A proposal to admit sons of veterans  
into the Grand Army posts was strong-  
ly supported, but after an extended  
debate was defeated by a small ma-  
jority. The encampment adopted a  
resolution requesting congress to pass  
a bill pensioning all veterans who have  
reached the age of sixty-two years.

In the afternoon the report of the  
flag committee recommending the pas-  
sage of bills through congress and the  
different state legislatures for the pur-  
pose of fostering public sentiment in  
favor of honoring the national flag,  
was passed. A resolution was adopted  
asking the president to issue an ex-  
ecutive order granting preference in  
public service to veterans, and for the  
making of an order by him giving pre-  
ference to veterans on the labor roll of  
the executive departments.

Commander Seeburg of California  
presented a report of the standing  
committee of memorial university at  
Mason City, Ia., instituted by the Sons  
of Veterans. The institution, he said,  
is in a flourishing condition, holding  
property valued at several hundred  
thousand dollars and having 3,000 to  
4,000 pupils in attendance.

### Social Functions Well Attended.

During the afternoon a reception  
under the auspices of the press com-  
mittee was held at the Mark Hopkins  
Institute of Art. In the evening there  
was a reunion and dog watch by the  
naval reserve, which during the day  
had paid a visit to the Mare Island  
navy yard. The commander-in-chief  
was received by the ladies of the G.  
A. R. in Union Square hall and the  
Woman's Relief corps, department of  
Massachusetts, had a reunion in Gol-  
den Gate hall. All of the social func-  
tions were well attended.

The twenty-first national convention  
of the Woman's Relief corps was  
called to order by Mrs. L. Taylor of  
Minneapolis, national president, who,  
after welcoming the delegates, read  
her report advocating rules for the  
better government of the corps. She  
was liberally applauded. The follow-  
ing officers were elected: National  
president, Sarah Winans, Ohio; senior  
vice commander, Ursula M. Mattison,  
Washington.

The National Association of Army  
Nurses elected the following officers:  
National president, Mrs. Addie L.  
Ballou, California; treasurer, Mrs. S.  
M. Stewart, Gettysburg, Pa.; chap-  
lain, Mary E. Lacy, New Jersey; con-  
ductor, Mrs. E. L. Chapman, Illinois.  
The Ladies of the G. A. R. opened  
their national convention in Union  
Square hall. President M. Anna Hall  
reported that the order had prospered  
beyond expectations. Brief reports  
were read and discussed.

### New Potato Pest.

Samuel Price, a Ravenna (O.) farm-  
er, has discovered a new and formid-  
able potato pest, says the Cincinnati  
Commercial Tribune. While inspecting  
a field of growing tubers he noticed  
large sections of dead and dying plants,  
due to the presence of a mosquito  
headed, dark bodied, quarter inch bug,  
which, armed with a needlelike prob-  
oscis, bores into the growing stock,  
from which it extracts the life juices,  
with fatal results. The newcomer is  
very lively, flies like a carrier pigeon,  
and all ordinary methods of warfare  
are futile against it.

## SALE OF ORE LANDS

### STEEL CORPORATION ACQUIRES.

LAST BIG BLOCK OF PROPERTY  
ON MESABA RANGE.

New York, Aug. 21.—The deal for  
the purchase of iron ore lands on the  
Mesaba range in Minnesota by the  
United States Steel corporation,  
which was completed some months  
ago, was certified Thursday by local  
officers of the corporation.

By this purchase the steel corpora-  
tion takes off the market the last  
large single block of ore property in  
the Mesaba range which is for sale.  
It is stated that the importance of the  
purchase cannot be overestimated. In  
all about 70,000,000 tons of excellent  
quality of ore, much of it high grade  
Bessemer, have been measured upon  
the land acquired and it is estimated  
that an even larger yield will be ob-  
tained.

### BOLD DIAMOND ROBBERY.

Thief Strashes a Show Window and  
Escapes With a Tray of Gems.

Canton, O., Aug. 21.—While the  
streets were crowded with shoppers  
late Thursday afternoon, a daring  
thief smashed the show window of  
W. A. Wortman's jewelry store in the  
heart of the city, and grabbing a tray  
containing \$2,000 worth of diamonds,  
made his escape before an alarm  
could be given. The thief cut his  
hands while reaching for the gems,  
but beyond this the police are with-  
out a clue.

### SUICIDES IN A BATHTUB.

Andrew Adams Uses the "Water Cure"  
Method to End His Life.

Salt Lake, Utah, Aug. 21.—Andrew  
Adams, a waiter who on last Satur-  
day murderously assaulted and fright-  
fully slashed Mrs. Jennie Gerald with  
a razor and then cut several gashes  
in his own throat in an effort at self-  
destruction, committed suicide at  
Holy Cross hospital last night. He  
evaded his nurse and went into a bath-  
room. He got into the tub, and plac-  
ing his mouth over the faucet, turned  
the water on full force. He clenched  
the faucet between his teeth and held  
on until unconscious. He died within  
a few minutes.  
It is believed that Mrs. Gerald will  
recover.

## WORKING INFINITE MISCHIEF.

Secretary Wilson Discusses Results  
of Corner in Cotton.

Washington, Aug. 21.—Secretary  
Wilson of the agricultural department,  
in an interview Thursday, declared  
that infinite mischief is being done to  
the cotton manufacturing industry  
and to the cotton growing industry by  
the speculative movement in cotton.

"The speculators have cornered the  
market," said the secretary, "and put  
up the price so high that the manufac-  
turers cannot use raw cotton. At ex-  
isting prices there is no profit to them.  
The prices of manufactured goods  
cannot be manipulated as can be the  
price of raw cotton. The manufac-  
turer found it more profitable to sell  
his cotton to the gamblers. Mills  
were closed down because of there  
being no raw material left and in some  
cases cotton which had been sold to  
European manufacturers had been  
brought back to this country and used  
in the gambling operations."

Secretary Wilson said that most  
European countries that manufacture  
cotton and also own lands in outlying  
provinces where cotton might be  
grown are anxious to become indepen-  
dent of our speculators and so are or-  
ganizing and offering incentives for  
the development of the cotton-raising  
industry.

Mr. Wilson said he saw no prospect  
of relief for the workmen who are  
thrown out of employment by the  
mills closing down because of the  
scarcity of raw cotton until the corner  
in cotton bursts and the price of the  
raw material is reduced.

### KILLED BY A LIVE WIRE.

Two Michigan Youths Meet a Tragic  
Fate.

Saginaw, Mich., Aug. 21.—James  
Budd and Eugene Moss, aged sixteen  
years, were burned to death here in  
an electric light tower last night. It  
has been the practice of boys to climb  
the tower, which is 125 feet high, to  
the platform at the top. Last night  
the Moss boy, while at the top, touched  
a wire carrying a current and instant-  
ly his body was a mass of flames.  
Young Budd had started to descend,  
but returned to attempt to rescue his  
companion. The moment he touched  
the wire he too became enveloped in  
flames. Both were instantly killed.  
The electric current on the west side  
of the city was turned off while line-  
men were engaged in securing the  
bodies of the boys, a process that re-  
quired two hours' work.

## RELIANCE IN THE LEAD

AMERICAN YACHT FAR AHEAD OF SHAMROCK III WHEN RACE IS CALLED OFF.

THE AMERICA'S CUP IS SAFE

EXPERTS PREDICT FAILURE OF LIPTON'S THIRD ATTEMPT TO LIFT TROPHY.

New York, Aug. 21.—One of the biggest crowds of sightseers and yachtsmen that ever sailed down Sandy Hook to witness an attempt of a foreign cup hunter to wrest from America the yachting supremacy of the world, returned to New York last night disappointed because the sea had refused a field of combat to the racers, but nevertheless, jubilant in the conviction that Sir Thomas Lipton's latest challenger, like the two Shamrocks which had preceded her, was doomed to return to England empty-handed. Of course the race Thursday was not absolutely conclusive, owing to the light and shifting character of the air, but in a fifteen-mile heat to windward, a portion of which was sailed in a driving rain, the cup defender

Reliance Showed Her Heels to Shamrock III in commanding style and in weather conditions which were supposed to be to the particular liking of the challenger. Life's latest creation has been heralded as a veritable wizard in light breezes in windward work, especially with a jumpy sea on, while the Reliance, in her trials, had demonstrated best reaching and running in a whole-sail wind. Yet Thursday, with a breeze varying from one to twelve knots, and against a long ground-swell, the defender out-footed and out-pointed her. The Shamrock did not turn the outer mark, and there is, therefore, no way of knowing absolutely how badly she was beaten, but it was estimated that she was more than a mile astern, or about sixteen minutes in the existing strength of the wind, when the Reliance rounded.

America's Cup Is Safe. As a result of the trial, the experts believe, blow high or low, that the Reliance will win this, the thirteenth series for the America's cup.

The day was a miserable one for those who went down to the ocean race course off Sandy Hook. A mist lay over the city and bay in the morning, and when the great fleet of excursion steamers, steam yachts, tugs and sailing vessels reached the starting line where the big single-stickers were already jockeying for a position, black, threatening clouds were gathering over the Jersey highlands and the breeze was not over six knots.

The course was set fifteen miles Southwest, straight down the Jersey coast, and return. At the very start Captain Barr cleverly outgeneraled Captain Wringe, sending the Reliance over the line thirty-three seconds behind the challenger, but

In the Windward Berth. In the first twenty minutes of sailing the defender showed her windward qualities, drawing up on even terms with the challenger besides being about two hundred yards to windward. Then the storm broke, and for thirty minutes the rain came down in torrents, the wind meanwhile increasing to twelve knots.

When the storm had passed, the defender was seen to be firmly established on the weather bow of Shamrock III, and she was never afterward headed.

During the last two hours of the race the Reliance steadily increased her lead, rounding the turn a mile ahead of Shamrock. Heading back for home close-hauled, she had just reached the Shamrock, still outward-bound, when, it being apparent that the race could not be finished in the time allowance, the regatta committee boat at 3:45 fired the signal which declared the race off.

Under the rules the first race, fifteen miles to leeward or windward and re-

turn, is now postponed until Saturday.

Sir Thomas Lipton Not Discouraged.

Sir Thomas Lipton was the first of the owners to return to the Hook Thursday, coming back on the Erin with his 100 or more guests. He was busy bidding adieu, but he stopped to say:

"No, I am not in the least disappointed in my boat or the outlook to-day. The wind was so light that no boat had a good chance, particularly mine with the smaller sail area. Wait till we get a good breeze."

The two single stickers did not arrive at the Hook until after 6 o'clock. The captains of both boats refused to talk for publication and all that Mr. Iselin would say was:

"We are perfectly satisfied. We have always been."

The work of the patrol fleet was perfect. Moving at right angles, line ahead and line abreast, the revenue cutters kept the yachts in the hollow of a moving angle, as free from interference as if they had been sailing in mid-ocean.

PASSED WORTHLESS CHECKS.

Alfred Crosby Owen Arrested at New York.

New York, Aug. 21.—Alfred Crosby Owen, twenty-eight years old, who says his home is in Washington, D. C., was locked up at police headquarters Thursday, charged with passing two worthless checks on the Waldorf-Astoria and Fifth Avenue hotels. The police believe they have the man who has been spending the last few weeks in the West, chartering special trains and posing as the son of Stephen B. Elkins.

Wilson S. Bissell Seriously Ill.

Bar Harbor, Me., Aug. 21.—Former Postmaster General Wilson S. Bissell is ill here and his friends fear he cannot recover. Mr. Bissell is a sufferer from Bright's disease.

## HEAVY LOSS OF LIFE

BRITISH FORCE CAPTURES NIGERIAN TOWN AND KILLS HUNDREDS OF NATIVES.

London, Aug. 21.—Dispatches received at the colonial office from Zanggrun, Northern Nigeria, dated Aug. 17, give details of the destruction of the town of Bura by a British force of 30 whites and 500 native rank and file. The enemy's loss was 700 killed, including the former sultan of Sokoto and a majority of the chiefs. The British loss was 11 men killed, including 1 officer, and 62 men wounded. The enemy made a desperate house to house resistance.

BIG FRAUD IS ALLEGED.

Bill of Complaint in Federal Court Against Prominent Delaware Man.

Philadelphia, Aug. 21.—A special to the Evening Telegraph from Wilmington, Del., says:

In the United States circuit court, George Wharton Pepper of Philadelphia, receiver of the Bay State Gas company of Delaware, filed a bill of complaint against J. Edward Addicks, United States Senator from Alaska and others, alleging fraud in connection with a transaction involving the stock of the company, said to be valued at \$75,000,000. The bill charges the defendants as directors, et cetera, with entering into an unlawful combination to issue to Addicks 1,500,000 shares of stock of the Bay State Gas company without consideration.

The bill further asks that Addicks be ordered to deliver to the receiver for cancellation certificates for the 1,500,000 shares of stock and that an accounting be made of the damages and loss sustained by the Bay State Gas company of Delaware in consequence of the fraudulent and unlawful issue of stock and that the defendants be ordered to pay an amount equivalent to the alleged damage and loss. The defendants are required to appear and make answer on the first Monday of November.

AFTER INFORMATION.

State Department Wires Minister Beaupre for Canal Treaty News.

Washington, Aug. 21.—Minister Beaupre at Bogota, has been asked by the state department to send more definite information concerning the proceedings about the isthmian canal treaty, but there is no way of telling how long the message will be delayed, owing to the interrupted telegraphic communication between Buena Ventura and Bogota. The fact that two messages of the same date reached the department with an interval of four days between them shows how irregular this method of communication has become. The trouble seems to be with the land lines, and it is understood that heavy tropical growth has interfered with the wires. The only dispatch received Thursday from Minister Beaupre was dated Aug. 12, and was very indefinite, although it conveys the impression that further efforts are being made to secure favorable action upon the treaty.

TROLLEY CAR RUNS AWAY.

One Man Killed and Several Others Injured.

Braddock, Pa., Aug. 21.—An open car on the Wilkesburg and East Pittsburg division of the Pittsburgh Railway company got away from the motorman on a high grade in North Braddock last evening and in its wild dash, killed Archie Hamilton and fatally injured Philip Burns, besides badly injuring several more.

## ELECT JOHN C. BLACK

GRAND ARMY VETERANS CHOOSE THE ILLINOIS MAN FOR COMMANDER-IN-CHIEF.

NEXT MEETING AT BOSTON

PROPOSAL TO ADMIT SONS OF VETERANS INTO GRAND ARMY POSTS VOTED DOWN.

San Francisco, Aug. 21.—The Grand Army of the Republic selected Boston as the place in which the encampment of 1904 will be held and elected the following officers:

Commander-in-chief, General John C. Black, Illinois; senior vice commander, Colonel C. Mason Keefe, California; junior vice commander, Colonel Harry Kessler, Montana; surgeon-in-chief, George A. Harmon, Ohio; chaplain-in-chief, Winfield Scott, Arizona.

The only contest of officers was over chaplain, for which two ballots were taken. On the first ballot, Bross of Nebraska received 28 votes, Scott of Arizona 35, and Bradford of Washington 35. Bradford withdrew and Scott was elected on the second ballot.

General John C. Black of Illinois was nominated by the Post Department Commander Lawler of Illinois for the office of commander-in-chief. The nomination was seconded by Milton of Kentucky and Torrence of Minnesota.

Under suspension of the rules, General Black was elected by acclamation. He made a brief address.

The remaining officers will be chosen today and also the committee on resolutions and it is expected that the encampment will then adjourn.

General Miles responded to a call for a speech and praised the heroism of the men who fought in the Civil war.

Boston Selected by Acclamation.

Boston and Denver were the only places contesting for the next place of meeting. Before the ballot had proceeded far, it became apparent Denver had no chance, and it was withdrawn. Boston was selected by acclamation.

A proposal to admit sons of veterans into the Grand Army posts was strongly supported, but after an extended debate was defeated by a small majority. The encampment adopted a resolution requesting congress to pass a bill pensioning all veterans who have reached the age of sixty-two years.

In the afternoon the report of the flag committee recommending the passage of bills through congress and the different state legislatures for the purpose of fostering public sentiment in favor of honoring the national flag, was passed. A resolution was adopted asking the president to issue an executive order granting preference in public service to veterans, and for the making of an order by him giving preference to veterans on the labor roll of the executive departments.

Commander Seeburg of California presented a report of the standing committee of memorial university at Mason City, Ia., instituted by the Sons of Veterans. The institution, he said, is in a flourishing condition, holding property valued at several hundred thousand dollars and having 3,000 to 4,000 pupils in attendance.

Social Functions Well Attended.

During the afternoon a reception under the auspices of the press committee was held at the Mark Hopkins Institute of Art. In the evening there was a reunion and dog watch by the naval reserve, which during the day had paid a visit to the Mare Island navyyard. The commander-in-chief was received by the ladies of the G. A. R. in Union Square hall and the Woman's Relief corps, department of Massachusetts, had a reunion in Golden Gate hall. All of the social functions were well attended.

The twenty-first national convention of the Woman's Relief corps was called to order by Mrs. L. Taylor of Minneapolis, national president, who, after welcoming the delegates, read her report advocating rules for the better government of the corps. She was liberally applauded. The following officers were elected: National president, Sarah Winans, Ohio; senior vice commander, Ursula M. Mattison, Washington.

The National Association of Army Nurses elected the following officers: National president, Mrs. Addie L. Ballou, California; treasurer, Mrs. S. M. Syewart, Gettysburg, Pa.; chaplain, Mary E. Lacy, New Jersey; conductor, Mrs. E. L. Chapman, Illinois.

The Ladies of the G. A. R. opened their national convention in Union Square hall. President M. Anna Hall reported that the order had prospered beyond expectations. Brief reports were read and discussed.

New Potato Pest.

Samuel Price, a Ravenna (O.) farmer, has discovered a new and formidable potato pest, says the Cincinnati Commercial Tribune. While inspecting a field of growing tubers he noticed large sections of dead and dying plants, due to the presence of a mosquito headed, dark bodied, quarter inch bug, which, armed with a needlelike proboscis, bores into the growing stock, from which it extracts the life juices, with fatal results. The newcomer is very lively, flies like a carrier pigeon, and all ordinary methods of warfare are futile against it.

## MOBERG'S BARGAIN - LIST

FOR

Wednesday, Thursday, Friday and Saturday, This Week.

All Ladies' and Misses Trimmed Hats left and worth up to \$2.50, choice..... **50c**  
Ladies Colored Shirt Waists, worth up to \$2.00, Choice..... **49c**  
Ladies' Fine White Shirt Waists to close at..... **\$1.45**  
Ladies' Fine, White Shirt Waists, worth up to \$1.50, choice..... **\$2.50**  
\$1.50 and \$1.25 Ladies' Kamonas and Dressing Sacks, choice..... **49c**  
\$2.50 and \$2.00 Ladies' Kamonas and Dressing Sacks, choice..... **\$1.00**  
5 Dozen Ladies' and Misses Sun Bonnets, choice..... **10c**

### Wash Goods Sale.

15c and 20c Goods, choice..... **10c**

### BIG REMNANT SALE,

Commencing Thursday.

### Boy's and Young Men's Suits

\$1.50 and \$1.25 Boy's Knee Pant Suits, 4 to 15 years of age, choice..... **50c**  
\$6.50 and \$5.00 Boy's Knee Pant and Vestee Suits, Choice..... **\$2.50**  
\$15.00 and \$12.50 Young Men's All Wool Suits, 14 to 20 years, choice styles and best make..... **\$5.00**

## SALE OF ORE LANDS

STEEL CORPORATION ACQUIRES.

LAST BIG BLOCK OF PROPERTY

ON MESABA RANGE.

New York, Aug. 21.—The deal for the purchase of iron ore lands on the Mesaba range in Minnesota by the United States Steel corporation, which was completed some months ago, was certified Thursday by local officers of the corporation.

By this purchase the steel corporation takes off the market the last large single block of ore property in the Mesaba range which is for sale. It is stated that the importance of the purchase cannot be overestimated. In all about 70,000,000 tons of excellent quality of ore, much of it high grade Bessemer, have been measured upon the land acquired and it is estimated that an even larger yield will be obtained.

BOLD DIAMOND ROBBERY.

Thief Snatches a Show Window and Escapes With a Tray of Gems.

Canton, O., Aug. 21.—While the streets were crowded with shoppers late Thursday afternoon, a daring thief smashed the show window of W. A. Workman's jewelry store in the heart of the city, and grabbing a tray containing \$2,000 worth of diamonds, made his escape before an alarm could be given. The thief cut his hands while reaching for the gems, but beyond this the police are without a clue.

SUICIDES IN A BATHTUB.

Andrew Adams Uses the "Water Cure" Method to End His Life.

Salt Lake, Utah, Aug. 21.—Andrew Adams, a waiter who on last Saturday murderously assaulted and frightfully slashed Mrs. Jennie Gerald with a razor and then cut several gashes in his own throat in an effort at self destruction, committed suicide at Holy Cross hospital last night. He evaded his nurse and went into a bath room. He got into the tub, and placing his mouth over the faucet, turned the water on full force. He clenched the faucet between his teeth and held on until unconscious. He died within a few minutes.

It is believed that Mrs. Gerald will recover.

## WORKING INFINITE MISCHIEF.

Secretary Wilson Discusses Results of Corner in Cotton.

Washington, Aug. 21.—Secretary Wilson of the agricultural department, in an interview Thursday, declared that infinite mischief is being done to the cotton manufacturing industry and to the cotton growing industry by the speculative movement in cotton.

"The speculators have cornered the market," said the secretary, "and put up the price so high that the manufacturers cannot use raw cotton. At existing prices there is no profit to them. The prices of manufactured goods cannot be manipulated as can be the price of raw cotton. The manufacturer found it more profitable to sell his cotton to the gamblers. Mills were closed down because of there being no raw material left and in some cases cotton which had been sold to European manufacturers had been brought back to this country and used in the gambling operations."

Secretary Wilson said that most European countries that manufacture cotton and also own lands in outlying provinces where cotton might be grown are anxious to become independent of our speculators and so are organizing and offering inducements for the development of the cotton-raising industry.

Mr. Wilson said he saw no prospect of relief for the workmen who are thrown out of employment by the mills closing down because of the scarcity of raw cotton until the corner in cotton bursts and the price of the raw material is reduced.

KILLED BY A LIVE WIRE.

Two Michigan Youths Meet a Tragical Fate.

Saginaw, Mich., Aug. 21.—James Budd and Eugene Moss, aged sixteen years, were burned to death here in an electric light tower last night. It has been the practice of boys to climb the tower, which is 125 feet high, to the platform at the top. Last night the Moss boy, while at the top, touched a wire carrying a current and instantly his body was a mass of flames. Young Budd had started to descend, but returned to attempt to rescue his companion. The moment he touched the wire he too became enveloped in flames. Both were instantly killed. The electric current on the west side of the city was turned off while the bodies of the boys, a process that required two hours' work.

## LOCAL NEWS NOTES.

Judge Mantor returned from Walker this morning.

Dr. D. M. McDonald left this noon for Aitkin on business.

Otto Olson arrived in the city today from the twin cities.

Miss Belle Low returned from St. Paul this afternoon.

E. H. Simmons left for St. Paul this afternoon on business.

Miss Eleanor Saunders left this afternoon for Staples for a visit.

Mrs. W. J. Smith went to St. Paul this noon to visit friends for a week.

H. W. Dodd, who has been visiting in the city, returned to his home in Glad Brook, Ia., this noon.

H. C. Hemstead, division paymaster of the Dakota division, was in the city for a short time today.

Will Bean returned from Chicago this afternoon where he has been on business for the Northern Pacific.

Dr. Babcock passed through the city this afternoon en route from Wadena to St. Paul on legislative business.

Mrs. H. A. Lyndon returned to her home in St. Paul this noon after visiting friends in the city for several days.

Mrs. Isham and daughter, Miss Edith Isham, who have been visiting in the city for a few days left this noon for the east.

The gentlemen who went to Staples to assist in the organization of a new I. O. O. F. lodge last night returned this morning.

Mrs. W. E. Entriaken went to Duluth this noon to visit a few hours with friends from the east who came to that city on an excursion on the lakes.

Decorators are at work today on the interior of the First National bank. The new fixtures for the bank are expected to arrive in the city in a short time now.

The First Congregational picnic at White Sand lake was a decidedly enjoyable affair. There were swimming, running and all kinds of races and some very unique prizes were given.

George Moody, court reporter for Judge McClenahan, left last night for Warroad, via Winnipeg, where his wife and little daughter are visiting. They will return to Brainerd in about a week.

Miss Carrie Morrison has gone to Chicago where she will look over the millinery styles for the coming fall and winter season. She will also visit some of the other eastern cities before returning home.

Miss Myrtle Drysdale was tendered a surprise party on Wednesday evening by some twenty of her young friends. She was presented with a beautiful writing cabinet, which was a mark of recognition of the high esteem in which she is held by her many friends. Luncheon was served and the young crowd busied themselves with parlor games during the evening as a diversion.

J. H. Koop came down from the north this morning.

W. T. Orcutt came in from the west this afternoon.

Mrs. A. K. Foster left this afternoon for Minneapolis.

J. R. Smith has been on the sick list for a day or two.

W. E. Seelye left for Duluth this afternoon on business.

G. F. Foster, the Little Falls insurance man, is in the city today.

Hon. Ole Mausten, of Aitkin, was in the city this noon for a short time on business.

The special meeting of the city council will be held tonight to take up the sewer matter.

Mrs. John, Miss Edna and Roy Leak have returned from their claims north of Blackduck.

F. P. McQuillin, of Aitkin, passed through the city this afternoon en route to the twin cities.

Matt Poppenberg, of Des Moines, Ia., arrived in the city this afternoon for a visit to his people.

Mrs. Fanny Smith and daughter, Miss Eloise Smith, went to Aitkin this afternoon for a few days visit.

Attorney J. S. Scribner came down from Backus this morning and left on No. 6 for St. Cloud on land office business.

Mrs. Julia K. McFadden and the Misses Laura and Irma Johnson left this afternoon for St. Paul for a short visit.

A. J. Sandusky, at one time a Brainerd resident but now of Fargo, passed through the city this afternoon en route to the twin cities.

Prof. Appleby and family, of Minneapolis, arrived in the city this afternoon. They will go to Long Lake and camp out a week or two.

Alex McCarthy left last night for Missoula, Mont., where he will attend the wedding of his brother Ed., which occurs there next Sunday.

Mrs. J. G. Shank, of Sauk Centre, and Mrs. J. B. Schriefels, of St. Cloud, who have been visiting in the city returned to their respective homes this afternoon.

The Swedish Mission church will have an ice cream social on the lawn at the church on Saturday evening at 7:45. Admission 15c. Ice cream will be served and some speeches and songs will be rendered. All welcome.

A check for \$5000 which represents the amount of insurance carried in the Royal Arcanum by the late J. F. Murphy, was received this morning by the local order and was paid over to the beneficiary, Mrs. Murphy, mother of the deceased, this afternoon.

Mrs. Eunice Melville, president of the state Rebekah Assembly, arrived in the city this morning from the north and left for the twin cities on No. 6. She was met at the train by a delegation from the Rebekah order in this city.

It is understood that the committee that went to Valley City to look over the library there were very much pleased with the general plan of the structure, and it is thought perhaps that the plans for a similar library in Brainerd will be recommended.

A party composed of Mr. and Mrs. H. Spalding, Senator Ferris, wife and son Frank and Mr. F. Nelson returned yesterday from Portage Lake with a goodly portion of the flinty tribe and report that indications point to an exceedingly good season for hunting. Backus News.

C. L. Hillstead, who has been running the Foley hotel at Aitkin, passed through the city today en route north. He has severed his connection with the Foley and has his eye on a real live town up on the M. & I. Everyone knows Carl and all hope to see him meet with abundant success.

## MORE CORN TO AN ACRE

Iowa Man's Plan to Increase the Yield.

## LITTLE WORK SAID TO BE NEEDED

The Seed Kernels Are Sorted by Hand According to Size and the Planter—On One Farm the Yield Increased From Fifty-eight to Seventy-two Bushels—Trophy Offered to Corn Growers.

"Let every farmer in the seven great corn states give a few winter evenings, and 480,000,000 bushels will be added to the annual crop of the corn belt."

In these words Professor P. G. Holden of the State Agricultural college, Ames, Ia., summarizes the campaign instituted by himself and the Iowa Corn Growers' association, says a Sioux City dispatch to the Kansas City Star.

It is not increased acreage that Professor Holden wants; it is better results from the present acreage. It is not by any artificial culture he would bring about these apparently gigantic results. He promises and demonstrates that they will be realized if the farmer does the simple thing of putting a hundred live kernels of corn in every thirty hills.

Entirely unique in the science of agronomy is the experimental work of Professor Holden, and throughout the state of Iowa he has convinced meetings of farmers that a professor in an agricultural college has a reform that is thoroughly practical. In a word, his plan requires only the sorting by hand of seed corn into lots of uniform size and the filing of plates in corn planters in such a way as to drop the required number of grains of corn in each hill. The missionary work is being extended to other states, and it is proposed to have every farmer in the corn belt eventually find how to plant his corn to get the best yield.

The Iowa Corn Growers' association has been formed by farmers, and only farmers, who believe Professor Holden's theory is right. W. C. Whiting of Whiting, Ia., in charge of the agricultural division of the Iowa commission for the Louisiana Purchase exposition, has personally presented to the Ames college and the Corn Growers' association a trophy valued at \$450, which will be awarded annually for seventy-five years for the best results in corn growing according to Professor Holden's theory. The trophy is entirely unique, representing an ear of corn eighteen inches long, the husks of silver and ear of gold, standing on an ebony base. Upon the base are four scrolls of silver decorated by tiny golden ears of corn, upon which will be inscriptions of the names of the winners and the object for which the cup was given.

To find how much the farmers of Iowa are losing each year by not properly planting corn, Professor Holden last year sent 1,000 letters to all parts of Iowa, asking the number of stalks in each hill in cornfields. He found the stand was only 75 per cent of what he has demonstrated will produce the largest yield, and last year's corn crop was generally considered a good stand. The other day he himself inspected twenty-four of the best cornfields he could find.

"I found," he reported to a meeting of the Iowa Corn Growers' association in Sioux City, "from 39 to 86.2 per cent of a perfect stand. The average loss was 28.7 per cent. I do not mean by this that the field that has five stalks in each hill is better than one with four and that hills of six stalks are better than hills of five. I have found that the best results are obtained from an average of about three and a third stalks to a hill. Our experiments have shown that one stalk in a hill will produce only one-third as much corn as a proper number of stalks, two stalks three-fourths of a yield, and five stalks the same. In making my tables I counted either three or four stalks a 100 per cent stand."

"For ten years the average yield of corn in Iowa has been approximately thirty-five bushels. A yield of thirty-five bushels with a 70 per cent stand, which is the average found in a number of years, would become fifty bushels with a 100 per cent stand."

The acreage planted to corn in the seven states growing over 100,000,000 bushels of corn in 1902 was: Illinois, 9,623,680; Iowa, 9,302,688; Nebraska, 7,817,962; Kansas, 7,451,603; Missouri, 6,775,194; Indiana, 4,520,637; Ohio, 3,200,224. The combined acreage was about 48,000,000. A gain of ten bushels an acre, or a 90 per cent stand, which Professor Holden thinks is easily attainable, would mean an increase in the annual yield of these states of 480,000,000 bushels.

On the big Funk farm at Bloomington, Ill., Professor Holden's theory was carried out last year. Several thousand acres were planted with seed sorted by hand through planters adjusted to drop the proper number of kernels. Previously the best yield was fifty-eight bushels per acre. Last year the average was seventy-two bushels. Of the gain Professor Holden estimates 80 per cent was due to the stand and 20 per cent to the excellent germinating power of the seed. In the experimental fields under Professor Holden's control the yield has never been less than sixty bushels since 1896.

ed will add at least ten bushels to the acre yield. At an average price of 30 cents a bushel that would mean a return of \$21 for the \$2 you invested in having the corn sorted. But you can do it as well on winter evenings, when it will have cost you nothing."

The imperfect stands of corn, Professor Holden says, are due to the irregular shapes of the kernels and the lack of adjustment of the drop plates in the planter. Kernels taken at random from full ears of corn and sown through ordinary plates will fall very unevenly. The plate should be filed so as to drop each size of kernel almost uniformly and the kernels sorted according to size.

When the kernels were sorted for size and arranged in two lots and plates adjusted for each lot, one test resulted in one kernel being dropped twice, two kernels two times, three kernels ninety-five times and four kernels one time. The other lot dropped two kernels four times, three kernels ninety-two times and four kernels four times—practically a perfect stand.

So Professor Holden says that the season of corn planting should be prepared for in advance by sorting the kernels into lots and throwing out those which will not germinate well, and then filing a plate to drop each of the kernels of each lot the proper number of times. The plates and lots should be labeled, and for each lot of seed the plates should be changed in planting.

## WEATHER BY SEASONS.

Predictions to Be Made by Observations at a New Observatory.

To predict weather by seasons is the next step which science is anxious to take in its progression along meteorological lines, and this step is one of the important subjects which will be discussed at the gathering of the leading meteorologists of the world at Southampton, England, beginning Sept. 7, says the Washington correspondent of the New York Tribune. Professor Willis L. Moore, chief of the United States weather bureau, will represent his bureau at the convention.

The fact that the United States is building a meteorological research observatory at Mount Weather, Va., for the study of higher meteorological problems places the United States in the lead on the question of weather. Professor Moore says that it is the intention to make this observatory the most complete in the world for the study of advanced meteorological problems, and it is his purpose to visit several important mountain observatories in Europe before his return in order that the new observatory may have the advantage of every advance which has been made in higher meteorology.

The chief of the Washington weather bureau believes that the development of the science along the lines to be pursued by the Mount Weather observatory will ultimately lead to the correct prediction of weather conditions by seasons, which would seem to be the Mecca of the science.

## TO TEACH HAPPINESS.

Paris' Newest School to Take Up a Vital Matter.

A "school of happiness" is to be opened at Paris in the autumn by Dr. Paul Valentin, says the Philadelphia Press. A complete course of lectures on the subject will be given.

One of the "teachers" recently declared that "men and women will be taught the art of happiness just as they are taught that of painting or of playing the piano." Among the kinds of happiness to be lectured upon will be how to be happy although married. Dr. Valentin considers that conjugal felicity depends upon three things—"circumstances which he does not define and over which one may not always have control, cerebral equilibrium between the two parties and suitability of character."

A periodical will be published by the school called the Normal Life.

## Novelty in Slot Machines.

One of the latest penny in the slot machines introduced in London supplies handkerchiefs at 2 or 4 cents apiece.

## The Macedonian Cry.

A cry from Macedonia. Again is being heard. But not the cry that often has Christian nations stirred, For people there are rising. "To arms! To arms!" they cry, And sternly they're declaring They'll triumph or they'll die.

Long years have they been trampled Beneath the tyrant's heel, Long years have they been wailing Their sorrowful appeal, And long have Christian nations Been slow to make reply, Though stirred by that petition—"Come help us or we die."

Their homes have oft been pillaged, The wives and children slain; The husbands and the fathers Have struggled, but in vain. Have oft made havoc dire And waged wide desolation With gun and sword and fire.

At times in desperation They've banded for defense And on the cruel tyrants Have vented hate intense, But vain were all their efforts, For they were overthrown, And cruelties atrocious Made Christian nations groan.

Though great their need for succor, Though urgent was their cry, The mighty Christian nations Were slow to make reply, For there were vows and treaties And jealousies and greed, And to appeals for succor The nations gave slight heed.

And now the Macedonians Around their leaders throng To make a final struggle In hope of righting wrong. By legions they are rising, "To arms! To arms!" they cry, And sternly they're declaring, "We'll triumph or we'll die!"—Theodore H. Bolce in Pittsburg Chronicle-Telegraph.

## LOCAL NEWS NOTES.

Judge Mantor returned from Walker this morning.

Dr. D. M. McDonald left this noon for Aitkin on business.

Otto Olson arrived in the city today from the twin cities.

Miss Belle Low returned from St. Paul this afternoon.

E. H. Simmons left for St. Paul this afternoon on business.

Miss Eleanor Saunders left this afternoon for Staples for a visit.

Mrs. W. J. Smith went to St. Paul this noon to visit friends for a week.

H. W. Dodd, who has been visiting in the city, returned to his home in Glad Brook, Ia., this noon.

H. C. Hemstead, division paymaster of the Dakota division, was in the city for a short time today.

Will Bean returned from Chicago this afternoon where he has been on business for the Northern Pacific.

Dr. Babcock passed through the city this afternoon en route from Wadena to St. Paul on legislative business.

Mrs. H. A. Lyndon returned to her home in St. Paul this noon after visiting friends in the city for several days.

Mrs. Isham and daughter, Miss Edith Isham, who have been visiting in the city for a few days left this noon for the east.

The gentlemen who went to Staples to assist in the organization of a new I. O. O. F. lodge last night returned this morning.

Mrs. W. E. Entriaken went to Duluth this noon to visit a few hours with friends from the east who came to that city on an excursion on the lakes.

Decorators are at work today on the interior of the First National bank. The new fixtures for the bank are expected to arrive in the city in a short time now.

The First Congregational picnic at White Sand lake was a decidedly enjoyable affair. There were swimming, running and all kinds of races and some very unique prizes were given.

George Moody, court reporter for Judge McClenahan, left last night for Warroad, via Winnipeg, where his wife and little daughter are visiting. They will return to Brainerd in about a week.

Miss Carrie Morrison has gone to Chicago where she will look over the millinery styles for the coming fall and winter season. She will also visit some of the other eastern cities before returning home.

Miss Myrtle Drysdale was tendered a surprise party on Wednesday evening by some twenty of her young friends. She was presented with a beautiful writing cabinet, which was a mark of recognition of the high esteem in which she is held by her many friends. Luncheon was served and the young crowd busied themselves with parlor games during the evening as a diversion.

J. H. Koop came down from the north this morning.

W. T. Orcutt came in from the west this afternoon.

Mrs. A. K. Foster left this afternoon for Minneapolis.

J. R. Smith has been on the sick list for a day or two.

W. E. Seelye left for Duluth this afternoon on business.

G. F. Foster, the Little Falls insurance man, is in the city today.

Hon. Ole Mausten, of Aitkin, was in the city this noon for a short time on business.

The special meeting of the city council will be held tonight to take up the sewer matter.

Mrs. John, Miss Edna and Roy Leak have returned from their claims north of Blackduck.

F. P. McQuillin, of Aitkin, passed through the city this afternoon en route to the twin cities.

Matt Poppenberg, of Des Moines, Ia., arrived in the city this afternoon for a visit to his people.

Mrs. Fanny Smith and daughter, Miss Eloise Smith, went to Aitkin this afternoon for a few days visit.

Attorney J. S. Scribner came down from Backus this morning and left on No. 6 for St. Cloud on land office business.

Mrs. Julia K. McFadden and the Misses Laura and Irma Johnson left this afternoon for St. Paul for a short visit.

A. J. Sandusky, at one time a Brainerd resident but now of Fargo, passed through the city this afternoon en route to the twin cities.

Prof. Appleby and family, of Minneapolis, arrived in the city this afternoon. They will go to Long Lake and camp out a week or two.

Alex McCarthy left last night for Missoula, Mont., where he will attend the wedding of his brother Ed., which occurs there next Sunday.

Mrs. J. G. Shank, of Sauk Centre, and Mrs. J. B. Schrievels, of St. Cloud, who have been visiting in the city returned to their respective homes this afternoon.

The Swedish Mission church will have an ice cream social on the lawn at the church on Saturday evening at 7:45. Admission 15c. Ice cream will be served and some speeches and songs will be rendered. All welcome.

A check for \$3000 which represents the amount of insurance carried in the Royal Arcanum by the late J. F. Murphy, was received this morning by the local order and was paid over to the beneficiary, Mrs. Murphy, mother of the deceased, this afternoon.

Mrs. Eunice Melville, president of the state Rebekah Assembly, arrived in the city this morning from the north and left for the twin cities on No. 6. She was met at the train by a delegation from the Rebekah order in this city.

It is understood that the committee that went to Valley City to look over the library there were very much pleased with the general plan of the structure, and it is thought perhaps that the plans for a similar library in Brainerd will be recommended.

A party composed of Mr. and Mrs. H. Spaulding, Senator Ferris, wife and son Frank and Mr. E. Nelson returned yesterday from Portage Lake with a goodly portion of the finny tribe and report that indications point to an exceedingly good season for hunting—Backus News.

C. L. Hillstead, who has been running the Foley hotel at Aitkin, passed through the city today en route north. He has severed his connection with the Foley and has his eye on a real live town up on the M. & I. Everyone knows Carl and all hope to see him meet with abundant success.

## MORE CORN TO AN ACRE

Iowa Man's Plan to Increase the Yield.

## LITTLE WORK SAID TO BE NEEDED

The Seed Kernels Are Sorted by Hand According to Size and the Planter—On One Farm the Yield Increased From Fifty-eight to Seventy-two Bushels—Trophy Offered to Corn Growers.

"Let every farmer in the seven great corn states give a few winter evenings, and 480,000,000 bushels will be added to the annual crop of the corn belt."

In these words Professor P. G. Holden of the State Agricultural college, Ames, Ia., summarizes the campaign instituted by himself and the Iowa Corn Growers' association, says a Sioux City dispatch to the Kansas City Star.

It is not increased acreage that Professor Holden wants; it is better results from the present acreage. It is not by any artificial culture he would bring about these apparently gigantic results. He promises and demonstrates that they will be realized if the farmer does the simple thing of putting a hundred live kernels of corn in every thirty hills.

Entirely unique in the science of agronomy is the experimental work of Professor Holden, and throughout the state of Iowa he has convinced meetings of farmers that a professor in an agricultural college has a reform that is thoroughly practical. In a word, his plan requires only the sorting by hand of seed corn into lots of uniform size and the filling of plates in corn planters in such a way as to drop the required number of grains of corn in each hill. The missionary work is being extended to other states, and it is proposed to have every farmer in the corn belt eventually find how to plant his corn to get the best yield.

The Iowa Corn Growers' association has been formed by farmers, and only farmers, who believe Professor Holden's theory is right. W. C. Whiting of Whiting, Ia., in charge of the agricultural division of the Iowa commission for the Louisiana Purchase exposition, has personally presented to the Ames college and the Corn Growers' association a trophy valued at \$450, which will be awarded annually for seventy-five years for the best results in corn growing according to Professor Holden's theory. The trophy is entirely unique, representing an ear of corn eighteen inches long, the husks of silver and ear of gold, standing on an ebony base. Upon the base are four scrolls of silver decorated by tiny golden ears of corn, upon which will be inscriptions of the names of the winners and the object for which the cup was given.

To find how much the farmers of Iowa are losing each year by not properly planting corn, Professor Holden last year sent 1,000 letters to all parts of Iowa, asking the number of stalks in each hill in cornfields. He found the stand was only 75 per cent of what he has demonstrated will produce the largest yield, and last year's corn crop was generally considered a good stand. The other day he himself inspected twenty-four of the best cornfields he could find.

"I found," he reported to a meeting of the Iowa Corn Growers' association in Sioux City, "from 39 to 86.2 per cent of a perfect stand. The average loss was 28.7 per cent. I do not mean by this that the field that has five stalks in each hill is better than one with four and that hills of six stalks are better than hills of five. I have found that the best results are obtained from an average of about three and a third stalks to a hill. Our experiments have shown that one stalk in a hill will produce only one-third as much corn as a proper number of stalks, two stalks three-fourths of a yield, and five stalks the same. In making my tables I counted either three or four stalks a 100 per cent stand."

"For ten years the average yield of corn in Iowa has been approximately thirty-five bushels. A yield of thirty-five bushels with a 70 per cent stand, which is the average found in a number of years, would become fifty bushels with a 100 per cent stand."

The acreage planted to corn in the seven states growing over 100,000,000 bushels of corn in 1902 was: Illinois, 9,623,680; Iowa, 9,302,688; Nebraska, 7,817,962; Kansas, 7,451,693; Missouri, 6,775,194; Indiana, 4,520,637; Ohio, 3,200,224. The combined acreage was about 48,000,000. A gain of ten bushels an acre, or a 90 per cent stand, which Professor Holden thinks is easily attainable, would mean an increase in the annual yield of these states of 480,000,000 bushels.

On the big Funk farm at Bloomington, Ill., Professor Holden's theory was carried out last year. Several thousand acres were planted with seed sorted by hand through planters adjusted to drop the proper number of kernels. Previously the best yield was fifty-eight bushels per acre. Last year the average was seventy-two bushels. Of the gain Professor Holden estimates 80 per cent was due to the stand and 20 per cent to the excellent germinating power of the seed. In the experimental fields under Professor Holden's control the yield has never been less than sixty bushels since 1896. "That isn't practical," objected a farmer in one of Professor Holden's meetings. "The idea of my sorting grains of corn by hand! I have something better to do."

"All right," answered Professor Holden. "We will say that you hire the work done by a man to whom you pay \$2 per day. He will sort at least a bushel of shelled corn every day. That bushel will plant seven acres of ground. The fact that it has been sorted

will add at least ten bushels to the acre yield. At an average price of 30 cents a bushel that would mean a return of \$21 for the \$2 you invested in having the corn sorted. But you can do it as well on winter evenings, when it will have cost you nothing."

The imperfect stands of corn, Professor Holden says, are due to the irregular shapes of the kernels and the lack of adjustment of the drop plates in the planter. Kernels taken at random from full ears of corn and sown through ordinary plates will fall very unevenly. The plate should be filed so as to drop each size of kernel almost uniformly and the kernels sorted according to size.

When the kernels were sorted for size and arranged in two lots and plates adjusted for each lot, one test resulted in one kernel being dropped twice, two kernels two times, three kernels ninety-five times and four kernels one time. The other lot dropped two kernels four times, three kernels ninety-two times and four kernels four times—practically a perfect stand.

So Professor Holden says that the season of corn planting should be prepared for in advance by sorting the kernels into lots and throwing out those which will not germinate well, and then filling a plate to drop each of the kernels of each lot the proper number of times. The plates and lots should be labeled, and for each lot of seed the plates should be changed in planting.

## WEATHER BY SEASONS.

Predictions to Be Made by Observations at a New Observatory.

To predict weather by seasons is the next step which science is anxious to take in its progression along meteorological lines, and this step is one of the important subjects which will be discussed at the gathering of the leading meteorologists of the world at Southampton, England, beginning Sept. 7, says the Washington correspondent of the New York Tribune. Professor Willis L. Moore, chief of the United States weather bureau, will represent his bureau at the convention.

The fact that the United States is building a meteorological research observatory at Mount Weather, Va., for the study of higher meteorological problems places the United States in the lead on the question of weather. Professor Moore says that it is the intention to make this observatory the most complete in the world for the study of advanced meteorological problems, and it is his purpose to visit several important mountain observatories in Europe before his return in order that the new observatory may have the advantage of every advance which has been made in higher meteorology.

The chief of the Washington weather bureau believes that the development of the science along the lines to be pursued by the Mount Weather observatory will ultimately lead to the correct prediction of weather conditions by seasons, which would seem to be the Mecca of the science.

## TO TEACH HAPPINESS.

Paris' Newest School to Take Up a Vital Matter.

A "school of happiness" is to be opened at Paris in the autumn by Dr. Paul Valentin, says the Philadelphia Press. A complete course of lectures on the subject will be given.

One of the "teachers" recently declared that "men and women will be taught the art of happiness just as they are taught that of painting or of playing the piano." Among the kinds of happiness to be lectured upon will be how to be happy although married. Dr. Valentin considers that conjugal felicity depends upon three things—"circumstances which he does not define and over which one may not always have control, cerebral equilibrium between the two parties and suitability of character."

A periodical will be published by the school called the Normal Life.

## Novelty in Slot Machines.

One of the latest penny in the slot machines introduced in London supplies handkerchiefs at 2 or 4 cents apiece.

## The Macedonian Cry.

A cry from Macedonia. Again is being heard. But not the cry that often has Christian nations stirred. For people there are rising. "To arms! To arms!" they cry. And sternly they're declaring They'll triumph or they'll die.

Long years have they been trampled Beneath the tyrant's heel. Long years have they been waiting Their sorrowful appeal. And long have Christian nations Been slow to make reply. Though stirred by that petition—"Come help us or we die."

Their homes have oft been pillaged, Their wives and children slain; The husbands and the fathers Have struggled, but in vain. Among them their oppressors Have oft made havoc dire And waged wide desolation With gun and sword and fire.

At times in desperation They've banded for defense And on the cruel tyrants Have vented hate intense. But vain were all their efforts, For they were overthrown. And cruelties atrocious Made Christian nations groan.

Though great their need for succor, Though urgent was their cry, The mighty Christian nations Were slow to make reply. For there were voices and treaties And jealousies and greed. And to appeals for succor The nations gave slight heed.

And now the Macedonians Around their leaders throng To make a final struggle In hope of righting wrong. By legions they are rising: "To arms! To arms!" they cry. And sternly they're declaring "We'll triumph or we'll die!"—Theodore H. Bolce in Pittsburgh Chronicle-Telegraph.

## MERCHANTS TO BE INVITED IN PARADE

Another Meeting of Labor Day Committee Held at Y. M. C. A. Last Night.

PROSPECTS BRIGHT FOR BIG DAY  
Merchants will be invited to Participate in the Big Parade With Floats.

There was another Labor Day meeting last night and matters pertaining to the celebration of this, the most important day in the year in Brainerd, were discussed.

One of the most important matters to come up was the decision of the assembly to invite the merchants of the city to participate in the big parade this year. They will all be asked to turn out with floats, but it is understood that they are not to be considered in the contest for the prizes.

The sports committee are not as yet fully able to report, but they will be ready by the next meeting, Tuesday night and the announcement of the ball game and the other events will be made. Everything is working along in good shape and the prospects are bright for one of the biggest celebrations in the history of Brainerd.

The assembly decided to meet hereafter at the Y. M. C. A. building instead of in the hall over McCarthy & Donahue's store.

## RACES AT THE STATE FAIR.

A Fine Lot of Speedy Horses to be on Hand to go in the Many Very Excellent Events.

The racing at the Minnesota State Fair of 1903, which opens on August 31st, will be one of the best. When the race entry list for the fair of 1902 was made public, it was pronounced by the highest sporting authorities the largest list and the best collection of horses ever made up for a western racing meet and quite the equal of the eastern grand circuit lists of that year. It was generally thought that such a list could not again be gotten together.

But the entry list for 1903 which was announced recently by Sec. E. W. Randall surpasses that of 1902 both in number and quality of horses entered. Last year the names of 230 horses appeared upon the list; this year over 260 horses have been entered. They represent the best things in leading stables from Manitoba to the Gulf of Mexico, and from the Atlantic to the Pacific Ocean.

New line of trunks and grips just received at D. M. Clark & Co. 49tf

## MILLWRIGHT BADLY MANGLED.

Right Hand Gets Caught in the Saw and He Loses Four of His Fingers.

This afternoon about 2:30 o'clock Ramey Landray, a millwright, working for the Brainerd Lumber company, met with a painful accident which resulted in the loss of four of his fingers on his right hand, and it is not at all improbable that he will have to have his hand taken off.

It seems that he was fixing a chain at the time and in pulling away pieces of slab, his hand was hit by a piece and forced into the saw. The four fingers of his right hand got caught.

Mr. Landray is a married man and lives at 1121, Northeast Fourth avenue.

## MAY FORM A UNION.

But Government Employees Must Not Overrule Federal Laws.

Orster Bay, Aug. 21.—President Roosevelt, having made applicable to all departments of government service the principle he enunciated at the time he reinstated "Tom A. Miller to the position in the government printing office from which Miller had been dismissed because of a disagreement with the bookbinders' union, has authorized the publication of a letter which was sent to each member of his cabinet on July 22. The letter contained copies of two communications to Secretary Cortelyou, the salient sentence of the first enclosure being as follows:

"There is no objection to the employees of the government office constituting themselves into a union if they so desire, but no rules or resolution of that union can be permitted to overrule the laws of the United States, which it is my sworn duty to enforce."

In the second letter the president quoted the finding of the anthracite strike commission regarding the employment of labor as follows:

"It is adjudged and awarded that no person shall be refused employment or in any way discriminated against on account of membership or non-membership in any labor or organization, and that there shall be no discrimination or interference with any employee who is not a member of any labor organization."

Concerning this principle the president wrote: "It is, of course, mere elementary decency to require that all the government departments shall be handled in accordance with the principle thus clearly and fearlessly enunciated."

## THIS MAN HAD A CLOSE CALL.

While Down in a Large Excavation Near Brewery the Sand Walls Caved in on Him.

A man, whose name could not be learned, would have been buried for good beneath some five or six feet of sand this morning, had it not happened that there were three men near by. The man had gone to the sand pit near the Brainerd Brewing company brewery to get a bag of sand. While filling the sack the walls of the pit caved in and he was buried. The men happened to be very near him and he was quickly excavated, but he was "nearly all in." He returned to his home, but the men who got him out of his perilous position neglected to ask him what his name was and he did not volunteer to tell them.

Why not buy your clothing, gents furnishings and shoes from McCarthy & Donahue and get a chance on the \$20 in cash in their window.

## LEAVE SEPTEMBER 1.

Considerable Interest Being Taken in the Shoot to be Held at Lake City Commencing Sept. 7.

The team from Company F that will take part in the big shoot at Lake City commencing September 7, will leave on September 1 for Duluth where they will practice for a week with other teams from different parts of the state. The Brainerd company will be represented by Frank and Fred Britton, and John Seibert this year. It is not thought that William Nelson and Francis Britton will be able to attend the shoot this year, although they were called with the others.

\$20.00 in cash will be given away by McCarthy & Donahue to the persons holding the lucky keys to the red box in their window.

G. W. Holland

We furnish your house complete, easy terms. 49tf D. M. Clark & Co.

## SOCIAL SERVICE IN BRITAIN.

Institute Organized in London on Lines of American Society.

Word was received recently by the American Institute of Social Service of an initial meeting in London looking to the formation of a British Institute of Social Service. The committee of organization appointed at the preliminary meeting consists of the Rev. Dr. John B. Paton of Nottingham, who has been the principal representative of social betterment in England for thirty years; Budgett Menkin, who is associated with the Shaftesbury institution; Rev. J. P. Gladstone, son of the late premier; Canon Barnett, who has long been associated with Toynbee Hall, the first great social settlement in London; Frederick Rogers, and F. H. Stead, brother of William T. Stead.

In its plan and scope the organization committee announces that the British Institute will be similar to the American Institute of Social Service. The organizers are of the opinion that the time has now come for combining sources of information and suggestion relating to social amelioration, which are scattered in many minds and in many organizations throughout Great Britain. The Christian religion, without denominational distinctions, will supply the basis of purpose and action.

It has also been decided that in view of the widely differing conditions in the different parts of the British Isles the new institute shall consist of Scottish, Irish, Welsh and English sections.

## CANE FOR JUSTICE HARLAN

A Unique Gift From His Admirers in Porto Rico.

Judge E. B. Wilcox of the district court of Ponce, Porto Rico, who sailed recently on the steamer Ponce for New York, en route to his home in South Carolina, carried with him a unique gift for Mr. Justice Harlan of the United States supreme court, says the San Juan correspondent of the Washington Star. It is a tortoise shell cane, with a head made of Porto Rico gold, on which is engraved the new coat of arms of Porto Rico.

On the ferrule, which is of silver, is inscribed, "The constitution follows the flag." This is a recognition of appreciation of Justice Harlan's decision in accord with the sentiment quoted. The cane will be presented to Justice Harlan by Judge Wilcox in behalf of Delegate Ulpiano Colon and other friends of Justice Harlan in Ponce.

## HEAVY WIND PLAYS HAVOC AT BAY LAKE.

Some Stock was Killed, Houses and Barns Damaged and Trees Injured.

## RAINSTORM FOLLOWED WIND

Team Belonging to B. E. Jefferson, of Duluth, Instantly Killed by Falling Tree.

There was quite a bad wind storm in this vicinity last night about midnight, though Brainerd did not suffer much loss.

A strip a few miles wide near Bay Lake was visited by a wind of cyclonic proportions and considerable damage was done. Trees were blown down, many houses and barns were unroofed and some stock was killed.

A team belonging to R. E. Jefferson, of Duluth, who is spending the summer near Bay Lake, was killed by the falling of a tree.

D. Archibald sustained quite a severe loss. He has a fine orchard and many of the trees were blown down. Others are reported to have lost quite heavily.

## THE ELKS ANNIVERSARY.

The Program For Celebration of Elks Anniversary Given Out by Entertainment Committee.

It is expected that there will be a large attendance of Elks at the hall tomorrow night when there will be appropriate ceremonies attending the celebration of the anniversary of the organization of the lodge.

The entertainment committee which had had the matter in charge has prepared an excellent program. After the social session there will be a sumptuous banquet. The program is as follows:

Cornet solo..... Frank Sykora  
Song..... Alex. Manderson  
Address..... C. D. Johnson  
Song..... S. F. Alderman  
Piano solo..... S. E. Engbretson  
Address..... J. T. Sanborn  
Song..... A. L. Mattes  
Piano solo..... Louis Hohman  
Song..... E. O. Webb  
Address..... W. A. Fleming  
Song..... A. E. Vachon  
Piano solo..... George Greweox  
Address..... W. S. McClenahan  
A. J. Halsted will be master of ceremonies.

## THE MARKETS.

## WILL MEET AT ST. LOUIS.

Transmississippi Congress to Convene There Next Year.

Seattle, Wash., Aug. 21.—St. Louis will be the next place of meeting for the Transmississippi congress if the executive committee can make proper arrangements for dates and entertainments.

The committee on resolutions will be ready to report today. The report will recommend a separate statehood for Indian Territory and Oklahoma and a fight probably will be made on the floor of the congress by the delegates from Oklahoma who want joint statehood.

The committee will approve the resolution recommending to the congress that the consular service be placed under the civil service.

The resolution favoring a ship subsidy was just about to be strangled when a compromise was effected by delegates from Washington urging congress to enact laws that will build an American merchant marine.

The sub-committee has reported in favor of a territorial form of government for Alaska, but the committee on resolutions has not yet thrashed out that question.

The feature of the morning session was the address of Walter Grosvenor of Galveston on the necessity of first class harbors to the commercial and industrial development of our country.

An hour was devoted to the irrigation question. A speech was made by George H. Maxwell of Chicago, and a paper was read by C. R. Booth of Los Angeles on this subject.

The delegates were taken to the Puget Sound navyyard at night to see the cruiser New York and view the navyyard.

## MUSIC AND DRAMA.

S. MILLER KENT.

The play "Fighting Bob," which S. Miller Kent will produce at the Brainerd theatre next Thursday, August 27, is full of thrilling situations but there is a bright leaven of comedy in it that delightfully relieves the strain upon the overwrought spectator. The dramatic features of the play are intensely absorbing. It tells the story of a son of a South American general who was killed while in command of his forces, and whose estate was confiscated, and of his flight with his impoverished mother to a Colorado town, and who struggled to regain the proud position the father had always maintained. He finds employment as a telegraph operator on the Colorado & Western railroad and works his way through Yale, and becomes of enough consequence to be sought by the Federal government for a special mission to Mexico. By the irony of fate he is sent to the same South American government where his father was killed. There he falls in love with Princess Helene, after he had saved her from death at the heels of a runaway horse while in Mexico, only to find that she is about to be betrothed to one of the princes of the land. Mr. Kent will be admirably supported, and Manager Roth has taken pains to see that the wild beauty of Mexico and the picturesque South American locality in which the scenes are laid, are true to nature.

## BASE BALL NUBS

The Aitkinites are all worked up over the game to be played in that city next Sunday between the teams of that city and Brainerd. They have, it is said, got all kinds of money to bet on the game and there will be a warm time. Hundreds of people will go from Brainerd to witness the game. The boys are arranging for an excursion.

The reports of the various retiring officers were adopted and a vote of thanks was given each for efficient service. It was resolved to telegraph to President Roosevelt the resolution favoring the pensioning of veterans of sixty-two years of age, which was adopted Thursday.

The encampment unanimously adopted the following resolution introduced by Captain P. H. Coney of Topeka, Kan.:

Congratulations to General Miles.

"Resolved, That we congratulate that splendid soldier, exemplary commander, and patriotic citizen, General Nelson A. Miles, on his attainment of a distinguished and honorable retirement after a matchless record as a soldier of more than forty-two years' service, without just criticism of his official conduct, which began as a lieutenant in the Twenty-second Massachusetts infantry, progressing by the brightest grade of heroic patriotism from Manassas to Appomattox, during the greatest of all civil wars, from 1861 to 1865, and illuminating this record by his great military achievements as a successful Indian fighter and again as a"

## RAILROAD GOSSIP

Master Mechanic Smith, of Jamestown, has resigned and will go to the Santa Fe system. It is not known yet who will succeed Smith at Jamestown.

There is a rumor afloat that S. L. Bean, who is master mechanic for the Santa Fe at Albuquerque, Mexico, will be promoted. He is said to be in line for the position of assistant superintendent of motive power.

The eastbound North Coast limited struck an unknown man between Staples and Philbrook Wednesday morning. The man was sitting on the rail with his feet off the track, and must have been asleep, as he paid no attention to the warning whistle of the engineer and made no effort to move. The engineer, seeing the man did not heed the warnings, made every effort to stop the train but could not do so, and it was running probably 10 miles per hour when he was struck in the back by the pilot and thrown into the ditch. The blow rendered him unconscious and he was carried into the baggage car and removed from the train at Little Falls.

MERCHANTS TO BE INVITED IN PARADE

Another Meeting of Labor Day Committee Held at Y. M. C. A. Last Night.

PROSPECTS BRIGHT FOR BIG DAY Merchants will be invited to Participate in the Big Parade With Floats.

There was another Labor Day meeting last night and matters pertaining to the celebration of this, the most important day in the year in Brainerd, were discussed.

One of the most important matters to come up was the decision of the assembly to invite the merchants of the city to participate in the big parade this year. They will all be asked to turn out with floats, but it is understood that they are not to be considered in the contest for the prizes.

The sports committee are not as yet fully able to report, but they will be ready by the next meeting, Tuesday night and the announcement of the ball game and the other events will be made. Everything is working along in good shape and the prospects are bright for one of the biggest celebrations in the history of Brainerd.

The assembly decided to meet hereafter at the Y. M. C. A. building instead of in the hall over McCarthy & Donahue's store.

RACES AT THE STATE FAIR.

A Fine Lot of Speedy Horses to be on Hand to go in the Many Very Excellent Events.

The racing at the Minnesota State Fair of 1903, which opens on August 31st, will be one of the best. When the race entry list for the fair of 1902 was made public, it was pronounced by the highest sporting authorities the largest list and the best collection of horses ever made up for a western racing meet and quite the equal of the eastern grand circuit lists of that year. It was generally thought that such a list could not again be gotten together.

But the entry list for 1903 which was announced recently by Sec. E. W. Randall surpasses that of 1902 both in number and quality of horses entered. Last year the names of 230 horses appeared upon the list; this year over 260 horses have been entered. They represent the best things in leading stables from Manitoba to the Gulf of Mexico, and from the Atlantic to the Pacific Ocean.

New line of trunks and grips just received at D. M. Clark & Co.

MILLWRIGHT BADLY MANGLED.

Right Hand Gets Caught in the Saw and He Loses Four of His Fingers.

This afternoon about 2:30 o'clock Ramey Landray, a millwright, working for the Brainerd Lumber company, met with a painful accident which resulted in the loss of four of his fingers on his right hand, and it is not at all improbable that he will have to have his hand taken off.

It seems that he was fixing a chain at the time and in pulling away pieces of slab, his hand was hit by a piece and forced into the saw. The four fingers of his right hand got caught.

Mr. Landray is a married man and lives at 1121, Northeast Fourth avenue.

MAY FORM A UNION.

But Government Employees Must Not Overrule Federal Laws.

Orster Bay, Aug. 21.—President Roosevelt, having made applicable to all departments of government service the principle he enunciated at the time he reinstated M. A. Miller to the position in the government printing office from which Miller had been dismissed because of a disagreement with the bookbinders' union, has authorized the publication of a letter which was sent to each member of his cabinet on July 22. The letter contained copies of two communications to Secretary Cortelyou, the salient sentence of the first enclosure being as follows:

"There is no objection to the employees of the government office constituting themselves into a union if they so desire, but no rules or resolution of that union can be permitted to overrule the laws of the United States, which it is my sworn duty to enforce."

In the second letter the president quoted the finding of the anthracite strike commission regarding the employment of labor as follows:

"It is adjudged and awarded that no person shall be refused employment or in any way discriminated against on account of membership or non-membership in any labor or organization, and that there shall be no discrimination or interference with any employee who is not a member of any labor organization."

Concerning this principle the president wrote: "It is, of course, mere elementary decency to require that all the government departments shall be handled in accordance with the principle thus clearly and fearlessly enunciated."

THIS MAN HAD A CLOSE CALL.

While Down in a Large Excavation Near Brewery the Sand Walls Caved in on Him.

A man, whose name could not be learned, would have been buried for good beneath some five or six feet of sand this morning, had it not happened that there were three men near by. The man had gone to the sand pit near the Brainerd Brewing company brewery to get a bag of sand. While filling the sack the walls of the pit caved in and he was buried. The men happened to be very near him and he was quickly excavated, but he was "nearly all in." He returned to his home, but the men who got him out of his perilous position neglected to ask him what his name was and he did not volunteer to tell them.

Why not buy your clothing, gents furnishings and shoes from McCarthy & Donahue and get a chance on the \$20 in cash in their window.

LEAVE SEPTEMBER 1.

Considerable Interest Being Taken in the Shoot to be Held at Lake City Commencing Sept. 7.

The team from Company F that will take part in the big shoot at Lake City commencing September 7, will leave on September 1 for Duluth where they will practice for a week with other teams from different parts of the state. The Brainerd company will be represented by Frank and Fred Britton and John Seibert this year. It is not thought that William Nelson and Francis Britton will be able to attend the shoot this year, although they were called with the others.

\$20.00 in cash will be given away by McCarthy & Donahue to the persons holding the lucky keys to the red box in their window.

G. W. Holland

is selling the high, hilly land on Kindred street a short distance east of the N. P. foundry in small pieces to suit the purchaser.

Do your chairs need upholstering, call on D. M. Clark & Co.

Let me repair your watch it will be a treat to you and a pleasure to me. A. P. Raymond, 706, Front St. Brainerd.

Just like finding money isn't it. All you have to do is to call at McCarthy & Donahue's and get a key to the red box in their window with every dollar cash purchase, which gives you a chance on \$20.00 in cash free of charge.

The B. Y. P. U. will give an ice cream and cake social on the lawn, corner of 6th and Juniper streets, Friday evening August 21st. All come. Price 15c.

We furnish your house complete, easy terms. D. M. Clark & Co.

SOCIAL SERVICE IN BRITAIN.

Institute Organized in London on Lines of American Society.

Word was received recently by the American Institute of Social Service of an initial meeting in London looking to the formation of a British Institute of Social Service. The committee of organization appointed at the preliminary meeting consists of the Rev. Dr. John B. Paton of Nottingham, who has been the principal representative of social betterment in England for thirty years; Budgett Menkin, who is associated with the Shaftesbury institution; Rev. J. P. Gladstone, son of the late premier; Canon Barnett, who has long been associated with Toynbee Hall, the first great social settlement in London; Frederick Rogers, and F. H. Stead, brother of William T. Stead.

In its plan and scope the organization committee announces that the British Institute will be similar to the American Institute of Social Service. The organizers are of the opinion that the time has now come for combining sources of information and suggestion relating to social amelioration, which are scattered in many minds and in many organizations throughout Great Britain. The Christian religion, without denominational distinctions, will supply the basis of purpose and action.

It has also been decided that in view of the widely differing conditions in the different parts of the British Isles the new institute shall consist of Scottish, Irish, Welsh and English sections.

CANE FOR JUSTICE HARLAN

A Unique Gift From His Admirers in Porto Rico.

Judge E. B. Wilcox of the district court of Ponce, Porto Rico, who sailed recently on the steamer Ponce for New York, en route to his home in South Carolina, carried with him a unique gift for Mr. Justice Harlan of the United States supreme court, says the San Juan correspondent of the Washington Star. It is a tortoise shell cane, with a head made of Porto Rico gold, on which is engraved the new coat of arms of Porto Rico.

On the ferrule, which is of silver, is inscribed, "The constitution follows the flag." This is a recognition of appreciation of Justice Harlan's decision in accord with the sentiment quoted. The cane will be presented to Justice Harlan by Judge Wilcox in behalf of Delegate Ulpiano Colon and other friends of Justice Harlan in Ponce.

HEAVY WIND PLAYS HAVOC AT BAY LAKE.

Some Stock was Killed, Houses and Barns Damaged and Trees Injured.

RAINSTORM FOLLOWED WIND

Team Belonging to B. E. Jefferson, of Duluth, Instantly Killed by Falling Tree.

There was quite a bad wind storm in this vicinity last night about midnight, though Brainerd did not suffer much loss.

A strip a few miles wide near Bay Lake was visited by a wind of cyclonic proportions and considerable damage was done. Trees were blown down, many houses and barns were unroofed and some stock was killed.

A team belonging to R. E. Jefferson, of Duluth, who is spending the summer near Bay Lake, was killed by the falling of a tree.

D. Archibald sustained quite a severe loss. He has a fine orchard and many of the trees were blown down. Others are reported to have lost quite heavily.

THE ELKS ANNIVERSARY.

The Program For Celebration of Elks Anniversary Given Out by Entertainment Committee.

It is expected that there will be a large attendance of Elks at the hall tomorrow night when there will be appropriate ceremonies attending the celebration of the anniversary of the organization of the lodge.

The entertainment committee which had had the matter in charge has prepared an excellent program. After the social session there will be a sumptuous banquet. The program is as follows: Cornet solo.....Frank Sykora Song.....Alex Manderson Address.....C. D. Johnson Song.....S. F. Alderman Piano solo.....S. E. Engbretson Address.....J. T. Sanborn Song.....A. L. Mattes Piano solo.....Louis Bohman Song.....E. O. Webb Address.....W. A. Fleming Song.....A. E. Vachon Piano solo.....George Grexox Address.....W. S. McClenahan A. J. Halsted will be master of ceremonies.

WILL MEET AT ST. LOUIS.

Transmississippi Congress to Convene There Next Year.

Seattle, Wash., Aug. 21.—St. Louis will be the next place of meeting for the Transmississippi congress if the executive committee can make proper arrangements for dates and entertainments.

The committee on resolutions will be ready to report today. The report will recommend a separate statehood for Indian Territory and Oklahoma and a fight probably will be made on the floor of the congress by the delegates from Oklahoma who want joint statehood.

The committee will approve the resolution recommending to the congress that the consular service be placed under the civil service.

The resolution favoring a ship subsidy was just about to be strangled when a compromise was effected by delegates from Washington urging congress to enact laws that will build an American merchant marine.

The sub-committee has reported in favor of a territorial form of government for Alaska, but the committee on resolutions has not yet threshed out that question.

The feature of the morning session was the address of Walter Gresham of Galveston on the necessity of first class harbors to the commercial and industrial development of our country.

An hour was devoted to the irrigation question. A speech was made by George H. Haxwell of Chicago, and a paper was read by C. B. Booth of Los Angeles on this subject.

The delegates were taken to the Puget Sound navyyard at night to see the cruiser New York and view the navyyard.

MUSIC AND DRAMA.

S. MILLER KENT.

The play "Fighting Bob," which S. Miller Kent will produce at the Brainerd theatre next Thursday, August 27, is full of thrilling situations but there is a bright heaven of comedy in it that delightfully relieves the strain upon the overwrought spectator. The dramatic features of the play are intensely absorbing. It tells the story of a son of a South American general who was killed while in command of his forces, and whose estate was confiscated, and of his flight with his impoverished mother to a Colorado town, and who struggled to regain the proud position the father had always maintained. He finds employment as a telegraph operator on the Colorado & Western railroad and works his way through Yale, and becomes of enough consequence to be sought by the Federal government for a special mission to Mexico. By the irony of fate he is sent to the same South American government where his father was killed. There he falls in love with Princess Helene, after he had saved her from death at the heels of a runaway horse while in Mexico, only to find that she is about to be betrothed to one of the princes of the land. Mr. Kent will be admirably supported, and Manager Roth has taken pains to see that the wild beauty of Mexico and the picturesque South American locality in which the scenes are laid, are true to nature.

# DEMANDS OF RUSSIA

TURKEY ACCEPTS THEM ALL AND

ASKS THAT RUSSIAN FLEET

BE WITHDRAWN.

TURKS ACTED LIKE FIENDS

SLAUGHTERED EVERY PERSON

THEY COULD FIND IN THE

CITY OF KRUSHEVO.

Constantinople, Aug. 21.—Tewfik

Pasha, the Turkish foreign minister,

Tuesday visited the Russian ambas-

sador and notified him that the Turk-

ish government accepted all the Rus-

sian demands and begged that the Rus-

sian squadron be withdrawn from

Turkish waters.

The news of the impending arrival

of the Russian squadron is spreading,

notwithstanding the continued sup-

pression of all telegrams and an-

ouncements on the subject.

The general opinion of the Europe-

ans here is that the time has ar-

rived for a vigorous intervention

and the abandonment of all semi-me-

asures, which are regarded as the cause

of the present rising.

According to the Turkish official

reports the strongest positions of the

insurgents are at Krushevo, Merihoro

and Florina. Contrary to previous

reports, it is now stated officially

that Krushevo is still occupied by the

insurgents.

The headquarters of the revolution-

ists are in the Peristeri mountains,

in the vicinity of Monastir. Women

and children are not molested by the

insurgents, who have destroyed only

fortified dwellings occupied by rich

Turks. It is not denied that they kill

all Bulgarians and Greeks found act-

ing as Turkish spies, but the strictest

orders have been issued not to inter-

fere with women or children.

It is officially reported that a strong

band of insurgents has been captured

near Florina, and that the peasants

are surrendering their arms.

tion for the Louisiana Purchase ex-

position, has personally presented to

the Ames college and the Corn Growers'

association a trophy valued at \$450,

which will be awarded annually for

seventy-five years for the best results

in corn growing according to Professor

Holden's theory. The trophy is entire-

ly unique, representing an ear of corn

eighteen inches long, the husks of sil-

ver and ear of gold, standing on an

ebony base. Upon the base are four

scrolls of silver decorated by tiny gold-

en ears of corn, upon which will be

inscriptions of the names of the winners

and the object for which the cup was

given.

To find how much the farmers of

Iowa are losing each year by not

properly planting corn, Professor Holden

last year sent 1,000 letters to all parts

of Iowa, asking the number of stalks

in each hill in cornfields. He found

the stand was only 75 per cent of what

he has demonstrated will produce the

largest yield, and last year's corn crop

was generally considered a good stand-

ards made by Greek consuls in Mac-

edonia, in which it is stated that the

Greek church schools and 322 houses

belonging to Greeks have been blown

up by dynamite, and a number of

Greek subjects have been killed.

M. Ralli appeals to the powers to

terminate the excesses in Macedonia,

from which he says, the Greeks are

greater sufferers than the Bulgarians

and Turks.

PREPARING FOR WAR.

Japanese Government Filling Form-

osa With Troops.

Victoria, B. C., Aug. 21.—Japanese

papers received by the steamer Indra-

vell Thursday from Yokohama to Aug.

4, discuss the alleged imminence of

war and tell of continued military

preparations. The Japan Advertiser

says the Japanese government is ac-

tively preparing for war, whether war

shall come or not. The men of the

different regiments were taking leave

of their families and friends and For-

mosa is being filled with troops.

The Advertiser quotes a lengthy in-

terview with W. H. Krumm, an Amer-

ican mining expert from Manchuria,

who in brief, said that his observa-

tion in Manchuria showed him clearly

that Russia intended to keep Man-

churia and was prepared to fight for

the territory. He told of enormous

expenditures on railway improve-

ments and rapid building of towns,

erection of substantial barracks and

preparations to swarm troops into

Eastern Asia.

NINE PERSONS INJURED.

Passenger Train Runs Through an

Open Switch and Strikes a Freight.

Connellsville, Pa., Aug. 21.—A Balti-

more and Ohio passenger train in go-

ing through the Connellsville yards en-

route to Fairmont last evening ran

through an open switch and crashed

into the middle of a moving freight

train on the westbound track. Nine

persons were hurt, three of them seri-

ously. The seriously injured are: O.

L. Pore, engineer; Dennis Devine,

conductor; Mrs. Adam Kieffer, Dun-

bar, Pa., eighty-six years old, passen-

ger.

FELL FROM A WINDOW.

St. Paul Man Dies of Injuries Received

on His Wedding Journey.

Chicago, Aug. 21.—Fatally injured

while on his wedding journey, Charles

C. Morrisette, of St. Paul, died at St.

Joseph's hospital last night. He was

married two months ago and came to

Chicago at the end of his honeymoon.

With his bride he was visiting the

family of Mrs. Margaret Otis.

Morrisette, who was a somnambulist,

arose in his sleep a few days ago,

climbed through an open window and

fell to the ground, breaking his spine.

He was a son of J. V. Morrisette, a

St. Paul lawyer.

# FIRE DESTROYS DERRICKS.

Entire Shoestring District at Beau-

mont, Tex., Threatened.

Beaumont, Tex., Aug. 21.—Fire

Thursday afternoon destroyed twenty-

five derricks in what is known as the

Shoestring district in the Sour Lake

oil fields. The flames were started by

a man's throwing a gallon of crude

oil in the firebox to start a fire in a

boiler. It spread quickly and in a

short time a considerable area was

ablaze, and it looked as if the entire

district, on which there are 180 derrick-

ies and several immense tanks,

would be destroyed. The loss has

not been estimated.

IN A CRITICAL CONDITION.

Lord Salisbury Is Expected to Die at

Any Moment.

London, Aug. 21.—A bulletin which

was issued at 10 o'clock last night

said Lord Salisbury's condition was

critical, and there was little hope of

his recovery. The end may be ex-

pected at any moment. Once in the

course of the evening it was thought

that his lordship had already breathed

his last, but he made a surprising

rally and at midnight it was announ-

ced that his condition had not changed

since the issuance of the 10 o'clock

bulletin.

SUPPORT OF PENNSYLVANIA.

Senator Quay Says It Will Go to Presi-

dent Roosevelt.

Pittsburg, Aug. 21.—When asked

what he thought of President Roose-

velt's chances for renomination, Sena-

tor M. S. Quay made this reply:

"I have heard of no opposition to

him, Pennsylvania. In my opinion

will support President Roosevelt at

the national convention next year."

## DEMANDS OF RUSSIA

**TURKEY ACCEPTS THEM ALL AND  
ASKS THAT RUSSIAN FLEET  
BE WITHDRAWN.**

**TURKS ACTED LIKE FIENDS**

**SLAUGHTERED EVERY PERSON  
THEY COULD FIND IN THE  
CITY OF KRUSHEVO.**

Constantinople, Aug. 21.—Tewfik Pasha, the Turkish foreign minister, Tuesday visited the Russian ambassador and notified him that the Turkish government accepted all the Russian demands and begged that the Russian squadron be withdrawn from Turkish waters.

The news of the impending arrival of the Russian squadron is spreading, notwithstanding the continued suppression of all telegrams and announcements on the subject.

The general opinion of the Europeans here is that the time has arrived for a vigorous intervention and the abandonment of all semi-measures, which are regarded as the cause of the present rising.

According to the Turkish official reports the strongest positions of the insurgents are at Krushevo, Merihoro and Florina. Contrary to previous reports it is now stated officially that Krushevo is still occupied by the insurgents.

The headquarters of the revolutionists are in the Peristeri mountains, in the vicinity of Monastir. Women and children are not molested by the insurgents, who have destroyed only fortified dwellings occupied by rich Turks. It is not denied that they kill all Bulgarians and Greeks found acting as Turkish spies, but the strictest orders have been issued not to interfere with women or children.

It is officially reported that a strong band of insurgents has been captured near Florina, and that the peasants are surrendering their arms.

For the Louisiana Purchase exposition, has personally presented to the Ames college and the Corn Growers' association a trophy valued at \$450, which will be awarded annually for seventy-five years for the best results in corn growing according to Professor Holden's theory. The trophy is entirely unique, representing an ear of corn eighteen inches long, the husks of silver and ear of gold, standing on an ebony base. ## NEW CAR WHEEL.

Invention of South Dakota Man Said to Be Valuable.

C. W. Hawkins, a former resident of Great Falls, Mont., but who is now at work on the Sioux Falls (S. D.) division of the Great Northern railroad, with headquarters at Garretton, Minn., has been awarded a patent on an invention which, it is said, promises to make him a millionaire, says the Chicago Record-Herald. The product of his genius is termed a ball bearing anti-friction car wheel. Its practicability is soon to be tested by several eastern railroads as well as the Great Northern. The car wheel does not differ materially in appearance from an ordinary wheel and is so constructed that it may be made independent of the journal and run on the ball bearing attachment if occasion demands.

In the event of a hot journal, often the cause of disastrous wrecks, by the application of a wedge the journal may be made to remain stationary, and the wheel will run on the ball bearings, which are constructed of highly hardened steel and are oiled automatically. This arrangement also permits the outside wheel to run faster in traversing a curve than the inside wheel without slipping, thus reducing the possibility of friction to the minimum and doing away with the wear, which makes it imperative that the steel on sharp curves must be replaced at frequent intervals to avoid derailments and resulting disasters to rolling stock and possible loss of life.

It is also claimed for the new wheel that it will reduce the draft of trains fully 25 per cent and that it can be manufactured and maintained at a small added cost over the price of the wheels at present in use.
